

I am asking you to please reject petition 04-160. I drive truck for a living and use the instant traffic and weather stations to plan my route to avoid traffic back-ups or weather related problems. Since I pay for these services, it should not be up to NAB to decide what I listen to. Since XM Radio is available every where, I am able to plan my stops long before I reach the city that I am traveling to and long before I can get any traffic info on a regular radio station. Satellite radio provides me with variety and quality that is not available any where else. Again, I urge you to reject petition 04-160.

Thank You,

Ron Badtke
